

Sustainability and Resilience Support Matrix

Following an assessment of the national criteria local teams should decide where individual practices should be placed on the support matrix below. Placement should be scored between 1-5 for both scope for support and impact of support. Descriptions for scoring are also provided.

Support Matrix

Impact of support	Very High - 5	A	A/G	G	G	G
	High - 4	A	A	A/G	A/G	G
	Moderate - 3	A/R	A	A	A	A/G
	Low - 2	R	A/R	A/R	A	A
	Very low - 1	B	R	R	R	R
		1	2	3	4	5
		Rare	Unlikely	Possible	Likely	Very likely
		Scope for support				

Description: Scope for support

Descriptor	Likelihood Scoring				
	1	2	3	4	5
	Rare	Unlikely	Possible	Likely	Very Likely
Frequency / What is the scope for support the practice?	There is no evidence that support is needed	Do not expect it to need support, but it is possible it may do so in the future	Might need support on basis of evidence presented	Likely need support because of specific issues/circumstances but not expected to persist.	Very likely to need support because of persisting local issues or circumstances. Very likely to need support because of specific urgent issue of circumstance.

Description: impact scoring

Descriptor	Likelihood Scoring				
	1	2	3	4	5
	Rare	Unlikely	Possible	Likely	Very Likely
Frequency / What is the scope for support the practice?	Very minor support needs	Single support issue	Moderate impact of support for practice, staff and for multiple patients	Significant effect for practice and staff if support provided, and moderate impact for patients.	Very significant impact for practice, staff and patients if support provided
	Minimal impact for practice, staff, patients	Low impact on practice and staff, and negligible impact for patients
